

Avery Dennison®

TrafficJet™ Holiday Season Printing Procedure

Instructional Bulletin : # 9.15
Revision : # 03
Last Updated : December 2019

With the holidays approaching, it is time to prepare your TrafficJet printer for the reduction in print volume. It is important to plan for periods when you will not be printing for extended periods of time.

Recommendations

- Longstore
- Upkeep printing

IMPORTANT! Only initiate a Longstore after consulting with Avery Dennison Technical Services first!

The preferred method is to periodically operate the printer. This ensures that ink continues to flow through the lines, preventing ink buildup and eventually reacting with the air. By printing the following [linked file](#) once (or more) per day, you can prevent possible damage to the printhead while at the same time avoid the expense of placing your machine in Longstore. The file has been designed to print using all inks and nozzles in the print head.

Your TrafficJet printer is an eco-solvent based printer. Printing all colors and channels ensures that ink is flowing through the lines and through the nozzles which will reduce the natural tendency of ink to collect and solidify in the nozzles. Instituting a policy to print regularly will help maintain your TrafficJet printer and reduce maintenance costs.

The above Avery Dennison literature provides information to the user for proper application, storage and other requirements. Please refer to Product Data Bulletins or your local Avery Dennison Representative for warranty information. Find the latest information on the Avery Dennison website, www.reflectives.averydennison.com. We encourage you to check our website periodically for updates.

All statements, technical information and recommendations about Avery Dennison products are based upon tests and information believed to be reliable, but do not constitute a guarantee or warranty of any kind. All Avery Dennison products are sold with the understanding that Purchaser has independently determined the suitability of such products for its intended and other purposes.
