## TrafficJet™ Flexi vendor color libraries

Instructional Bulletin : # 9.20  
Revision : # 02  
Last Updated : June 2018

Flexi has many pre-loaded, vendor specific color libraries.  
An example is the Avery Dennison Graphics Solutions 700, 800 or 900-series cutting vinyl series.

This bulletin explains how you can load single vendor specific colors into your existing library as well as how to load the full vendor specific library next to your existing one.

### Add single vendor specific color(s) to your existing library

- Open Flexi
- Open the color specs dialog
- Click the library tab
- Pick a vendor
- Pick a vendor specific color library
- Select a color from that library
- Click the add button with the arrow to the left to add this color to your current library
- Repeat this for all colors you would like to add
- Click OK
- Close Flexi to save this change to your existing color library

### Load vendor specific library

- Right click on your current library
- Choose open table
- In the dialog, open the library folder
- Choose your vendor
- Choose your vendor specific color library
- Click Open
- Close Flexi to save this change

Create your artwork using this vendor specific color. Production Manager will use the correct values and will reproduce this color as accurate as possible on the reflective sheeting type loaded.

The above Avery Dennison literature provides information to the user for proper application, storage and other requirements. Please refer to Product Data Bulletins or your local Avery Dennison Representative for warranty information. Find the latest information on the Avery Dennison website, [www.reflectives.averydennison.com](http://www.reflectives.averydennison.com).
